**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I've had enough bad service, unresponsive customer relations and ever-increasing prices from Comcast and the like. The marketplace needs a wider selection of internet providers in order to give the public a better range of service choices (and pricing) as well as more responsive service. I recently switched to fiber service offered by Sonic and I now get faster and so far more reliable service than I previously had with Comcast. And I'm paying much less than I was paying Comcast or AT&T for a package that included services I didn't even want but that were bundled with the service I needed.

My wife and I have a small business that we run from our home and fast, affordable, reliable internet is crucial to our work. We now have that, thanks to our local broadband provider.

Please keep the option for affordable, quality broadband available to small businesses and consumers like me.
